

THE CASE OF THE MISSING PENDRIVE

Full Clue Document — All 32 Teams (Track A + Track B)

Puzzles sourced only from **Track D and Track E** of the Technical Question Bank (plus their same-category reserve questions), matching the reference’s poetic, location-first riddle style. Mechanical flow is unchanged from the Master Map: Envelope → Clue 2 (location + codeword) → Crewmate → Clue 3 (online decode) → Clue 4 (location + puzzle) → Final.

SHARED OPENING CARD (all 32 teams)

🔑 **CASE #0426 — OPEN** 🔑 You are no longer students. Tonight, you’re **Detectives**, badge and all. Something walked off campus last night. Somebody made sure of it. Somebody else nearly did too. Follow what’s left behind. Find where it ended up. **Detectives — move out.**

PART 1 — ZONE LIBRARY (poetic riddles, Track A and Track B versions)

Each zone has two riddle flavors — one for Track A teams, one for Track B — since both tracks pass through the same physical spots per the Master Map, but from a different character’s side of the night.

Football Net

Track B: > Where a net catches all it’s thrown, > and no one plays this late alone — > a fence stood sagged, a sleeve was torn, > before the whistle, before the dawn. > Answer: Football Net

Track A: > Where a ball forgets to fall asleep, > netted still, its silence deep — > someone crossed here, soft and fast, > gone before the moment passed. > Answer: Football Net

Garden

Track B: > Two patches green, no flowers grow, > just grass that watched him rush and go — > past the smell of fast food’s stand, > straight for the gate, straight off this land. > Answer: Garden

Track A: > Two patches green, on either side, > where someone waited, stepped, and tried — > the fast food light, she knew too well, > to time her steps and never tell. > Answer: Garden

Placement Banner

Track B: > Where futures hang, printed and proud, > a promise made, sworn out loud — > he passed it once, not stopping to read, > a man with debts and desperate need. > Answer: Placement Banner

Track A: > Where futures hang, printed and proud, > she waited here, alone, unbowed — > scrolling one thing, again, again, > until the courage came to enter in. > Answer: Placement Banner

Canteen

Track B: > Where hunger goes to disappear, > and gossip’s louder than the cheer — > he passed here fast, not stopping to eat, > something crashed close by, near his feet. > Answer: Canteen

Track A: > Where hunger goes to disappear, > she entered soft, drawing near — > a door, a crash, a startled sound, > and something rolling on the ground. > Answer: Canteen

New Stairs

Track B: > Fresh paint, barely worn by feet, > he never climbed them, only fled the street — > the shortest path back toward the gate, > a man who couldn’t afford to wait. > Answer: New Stairs

Track A: > Fresh paint, barely worn by feet, > she passed close by, unsure, discreet — > steps that lead toward open air, > not the way she chose, but almost there. > Answer: New Stairs

Badminton Court

Track B: > Where shuttles fly and rackets sing, > he barely noticed anything — > ran straight past, not stopping to see, > a net, a court, an empty referee. > Answer: Badminton Court

Track A: > Where shuttles fly and rackets sing, > something landed, an unplanned thing — > not sport tonight, just panic’s flight, > caught in netting, out of sight. > Answer: Badminton Court

Main Gate

Track B: > Where the campus breathes its last goodbye, > and every soul must swipe or say hi — > he never scanned, he climbed instead, > a fence that sagged, a torn sleeve’s thread. > Answer: Main Gate

Track A: > Where the campus breathes its last goodbye, > she never came or went thereby — > but someone did, in a hurry, unseen, > gone before the gate’s routine. > Answer: Main Gate

Ground (Open Gym / New Stairs edge / top walkway)

Track B: > Where a hundred feet run every morning, > empty now, no crowd, no warning — > he crossed it fast, along the top, > a walkway’s slope he didn’t stop. > Answer: Ground

Track A: > Where a hundred feet run every morning, > empty now, silent, no warning — > she crossed it once, then turned away, > chose a different path to stray. > Answer: Ground

Student Parking

Track B: > Wheels rest here, riders long gone, > silence stretched from dusk till dawn — > mud on a shoe, a shadow’s trace, > the last stop before he left this place. > Answer: Student Parking

Track A: > Wheels rest here, riders long gone, > she never lingered, kept moving on — > just passed the edge, and kept her pace, > nowhere close to a resting place. > Answer: Student Parking

PART 2 — CLUE 2: THE CODEWORD (physical, found at the zone)

Shared story text (all zones, both tracks): > Something’s here — dropped, torn, or forgotten. A word survives. Work it out, and the case file updates.

Codeword Puzzle Pool (Track D / Track E sourced)

#	Puzzle	Answer
Q1	Convert 84 69 67 72 using ASCII.	TECH
Q2	Decode FRGH using a Caesar shift of -3.	CODE
Q3	Decode KHOOR using a Caesar shift of -3.	HELLO
Q4	Using Atbash (A↔Z, B↔Y...), decode XLWV .	CODE
Q5	Using ASCII, decode 72 73 .	HI
Q6	Start with 7. Perform ×2, +6, ÷2, +5. What’s the final value?	15
Q7	ASCII value of A ?	65
Q8	ASCII value of z ?	90

PART 3 — CREWMATE SCRIPTS

Track B (all 16 Crewmates, same script): > “You found me, Detective. I heard someone moving late that night — didn’t see his face, but I remember the sound. Not saying it out loud. Here — scrambled, just in case.”

Track A (all 16 Crewmates, same script): > “You found me, Detective. I saw someone out here far too late, moving carefully, like she knew the campus better than most. Not saying it out loud. Here — scrambled, just in case.”

PART 4 — CLUE 3: THE SCRAMBLED SIGHTING (online, after Crewmate code)

Shared story text: > The witness didn’t want to write it plain. Decode it — you’ll know exactly where this leads next.

Online Decode Pool (Track D / Track E sourced)

#	Puzzle	Answer
R1	Convert 84 69 67 72 using ASCII.	TECH
R2	Decode FRGH using a Caesar shift of -3.	CODE
R3	Decode KHOOR using a Caesar shift of -3.	HELLO
R4	Using ASCII, decode 72 73 .	HI

Reveal (system, after correct answer, all teams): > CASE FILE UPDATED. That’s where this leads next. > (System reveals the team’s Clue 4 zone.)

PART 5 — CLUE 4: THE EVIDENCE (physical, found at the zone)

Shared story text (all zones, both tracks): > Something’s here too — left behind in the scramble. A number, not written plain. Work it out.

Physical Puzzle Pool (Track D / Track E sourced)

#	Puzzle	Answer
P1	for(int i=5;i>=1;i--) printf("%d ", i); — what prints?	5 4 3 2 1
P2	int a[]={2,4,6,8,10}; for(i=0;i<5;i++) printf("%d ", a[i]+1); — what prints, and the sum?	3 5 7 9 11 , sum 35
P3	Find the next number: 2, 5, 11, 23, 47, ?	95
P4	int a[]={5,10,15,20}; printf("%d", a[2]); — what prints?	15
P5	A=1, B=0. Evaluate (A AND B) OR NOT(B) .	1
P6	How many times does for(int i=0;i<5;i++) execute?	5
P7	for(int i=1;i<=3;i++) printf("%d",i); — what prints?	123
P8	Find the next number: 4, 8, 16, 32, ?	64
P9	Find the next number: 1, 4, 9, 16, ?	25
P10	Find the next number: 3, 6, 10, 15, ?	21
P11	int a[]={10,20,30,40}; — what is a[0] ?	10
P12	int a[]={5,10,15}; — what is a[1]+a[2] ?	25

Reveal (system, after correct answer, all teams): > CASE FILE UPDATED — FINAL LEAD. > Whatever went missing that night, it didn’t stay lost for long. Get there before anyone else does. > (System reveals: Empty Stage.)

FINAL — EMPTY STAGE (all 32 teams converge)

Lights are down. No crowd tonight. Something’s hidden, out of sight. Three places hold what you came to find — the first to claim it leaves the rest behind.

Mechanic: 3 hidden keys backstage at Empty Stage. First 3 teams overall, from either track, to find one and bring it to organizers place 1st, 2nd, 3rd.

PART 6 — TRACK A ROUTING TABLE (16 teams)

Zone names use our renamed set. **PC** = Placement Banner. Empty Stage removed from mid-route (already fixed in Master Map — those slots use Student Parking).

Team	Clue 2 Zone	Codeword #	Crewmate	Clue 3 #	Clue 4 Zone	Puzzle #	Final
A1	Football Net	Q1	CM-A1	R1	Garden	P1	Empty Stage
A2	Garden	Q2	CM-A2	R2	Placement Banner	P2	Empty Stage

PART 8 — EACH TEAM’S FULL WALKING PATH (every step, including the Crewmate hand-off)

Fixed: the step after meeting the Crewmate isn’t automatic. The Crewmate physically hands the team a scrambled code — that exact code is what gets decoded online in the next step. Shown explicitly below for all 32 teams.

Track A — “Girl, Where’s My Bag”

A1 1. Check-in (Envelope) → riddle points to **Football Net** 2. At Football Net: codeword puzzle — “Convert 84 69 67 72 using ASCII.” → answer **TECH** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-A1**) → she gives her witness line and hands over a scrambled code, in character Crewmate hands over the code: 84 69 67 72 4. Enter that code online → decode it using **ASCII** → answer **TECH** → reveals next zone 5. At **Garden**: evidence puzzle — “for(int i=5;i>=1;i-) printf(“%d “, i); - what prints?” → answer **5 4 3 2 1** → reveals finale 6. Final: **Empty Stage**

A2 1. Check-in (Envelope) → riddle points to **Garden** 2. At Garden: codeword puzzle — “Decode FRGH using a Caesar shift of -3.” → answer **CODE** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-A2**) → she gives her witness line and hands over a scrambled code, in character Crewmate hands over the code: FRGH 4. Enter that code online → decode it using **Caesar shift -3** → answer **CODE** → reveals next zone 5. At **Placement Banner**: evidence puzzle — “int a[]={2,4,6,8,10}; for(i=0;i<5;i++) printf(“%d “, a[i+1]); - what prints, and the sum?” → answer **3 5 7 9 11, sum 35** → reveals finale 6. Final: **Empty Stage**

A3 1. Check-in (Envelope) → riddle points to **Placement Banner** 2. At Placement Banner: codeword puzzle — “Decode KHOOR using a Caesar shift of -3.” → answer **HELLO** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-A3**) → she gives her witness line and hands over a scrambled code, in character Crewmate hands over the code: KHOOR 4. Enter that code online → decode it using **Caesar shift -3** → answer **HELLO** → reveals next zone 5. At **Student Parking**: evidence puzzle — “Find the next number: 2, 5, 11, 23, 47, ?” → answer **95** → reveals finale 6. Final: **Empty Stage**

A4 1. Check-in (Envelope) → riddle points to **Student Parking** 2. At Student Parking: codeword puzzle — “Using Atbash (A<->Z, B<->Y...), decode XLWV.” → answer **CODE** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-A4**) → she gives her witness line and hands over a scrambled code, in character Crewmate hands over the code: 72 73 4. Enter that code online → decode it using **ASCII** → answer **HI** → reveals next zone 5. At **Badminton Court**: evidence puzzle — “int a[]={5,10,15,20}; printf(“%d”, a[2]); - what prints?” → answer **15** → reveals finale 6. Final: **Empty Stage**

A5 1. Check-in (Envelope) → riddle points to **Canteen** 2. At Canteen: codeword puzzle — “Using ASCII, decode 72 73.” → answer **HI** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-A5**) → she gives her witness line and hands over a scrambled code, in character Crewmate hands over the code: 84 69 67 72 4. Enter that code online → decode it using **ASCII** → answer **TECH** → reveals next zone 5. At **New Stairs**: evidence puzzle — “A=1, B=0. Evaluate (A AND B) OR NOT(B).” → answer **1** → reveals finale 6. Final: **Empty Stage**

A6 1. Check-in (Envelope) → riddle points to **New Stairs** 2. At New Stairs: codeword puzzle — “Start with 7. Perform x2, +6, /2, +5. Final value?” → answer **15** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-A6**) → she gives her witness line and hands over a scrambled code, in character Crewmate hands over the code: FRGH 4. Enter that code online → decode it using **Caesar shift -3** → answer **CODE** → reveals next zone 5. At **Main Gate**: evidence puzzle — “How many times does for(int i=0;i<5;i++) execute?” → answer **5** → reveals finale 6. Final: **Empty Stage**

A7 1. Check-in (Envelope) → riddle points to **Badminton Court** 2. At Badminton Court: codeword puzzle — “ASCII value of A?” → answer **65** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-A7**) → she gives her witness line and hands over a scrambled code, in character Crewmate hands over the code: KHOOR 4. Enter that code online → decode it using **Caesar shift -3** → answer **HELLO** → reveals next zone 5. At **Football Net**: evidence puzzle — “for(int i=1;i<=3;i++) printf(“%d”,i); - what prints?” → answer **123** → reveals finale 6. Final: **Empty Stage**

A8 1. Check-in (Envelope) → riddle points to **Main Gate** 2. At Main Gate: codeword puzzle — “ASCII value of Z?” → answer **90** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-A8**) → she gives her witness line and hands over a scrambled code, in character Crewmate hands over the code: 72 73 4. Enter that code online → decode it using **ASCII** → answer **HI** → reveals next zone 5. At **Ground**: evidence puzzle — “Find the next number: 4, 8, 16, 32, ?” → answer **64** → reveals finale 6. Final: **Empty Stage**

A9 1. Check-in (Envelope) → riddle points to **Ground** 2. At Ground: codeword puzzle — “Convert 84 69 67 72 using ASCII.” → answer **TECH** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-A9**) → she gives her witness line and hands over a scrambled code, in character Crewmate hands over the code: 84 69 67 72 4. Enter that code online → decode it using **ASCII** → answer **TECH** → reveals next zone 5. At **Canteen**: evidence puzzle — “Find the next number: 1, 4, 9, 16, ?” → answer **25** → reveals finale 6. Final: **Empty Stage**

A10 1. Check-in (Envelope) → riddle points to **Football Net** 2. At Football Net: codeword puzzle — “Decode FRGH using a Caesar shift of -3.” → answer **CODE** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-A10**) → she gives her witness line and hands over a scrambled code, in character Crewmate hands over the code: FRGH 4. Enter that code online → decode it using **Caesar shift -3** → answer **CODE** → reveals next zone 5. At **New Stairs**: evidence puzzle — “Find the next number: 3, 6, 10, 15, ?” → answer **21** → reveals finale 6. Final: **Empty Stage**

A11 1. Check-in (Envelope) → riddle points to **Garden** 2. At Garden: codeword puzzle — “Decode KHOOR using a Caesar shift of -3.” → answer **HELLO** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-A11**) → she gives her witness line and hands over a scrambled code, in character Crewmate hands over the code: KHOOR 4. Enter that code online → decode it using **Caesar shift -3** → answer **HELLO** → reveals next zone 5. At **Badminton Court**: evidence puzzle — “int a[]={10,20,30,40}; - what is a[0]?” → answer **10** → reveals finale 6. Final: **Empty Stage**

A12 1. Check-in (Envelope) → riddle points to **Placement Banner** 2. At Placement Banner: codeword puzzle — “Using Atbash (A<->Z, B<->Y...), decode XLWV.” → answer **CODE** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-A12**) → she gives her witness line and hands over a scrambled code, in character Crewmate hands over the code: 72 73 4. Enter that code online → decode it using **ASCII** → answer **HI** → reveals next zone 5. At **Badminton Court**: evidence puzzle — “int a[]={5,10,15,20}; printf(“%d”, a[2]); - what prints?” → answer **15** → reveals finale 6. Final: **Empty Stage**

>Y...), decode XLWV." → answer **CODE** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-A12**) → she gives her witness line and hands over a scrambled code, in character Crewmate hands over the code: **72 73** 4. Enter that code online → decode it using **ASCII** → answer **HI** → reveals next zone 5. At **Main Gate**: evidence puzzle — "`int a[]={5,10,15}; - what is a[1]+a[2]?`" → answer **25** → reveals finale 6. Final: **Empty Stage**

A13 1. Check-in (Envelope) → riddle points to **Student Parking** 2. At Student Parking: codeword puzzle — "*Using ASCII, decode 72 73.*" → answer **HI** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-A13**) → she gives her witness line and hands over a scrambled code, in character Crewmate hands over the code: **84 69 67 72** 4. Enter that code online → decode it using **ASCII** → answer **TECH** → reveals next zone 5. At **Garden**: evidence puzzle — "`for(int i=5;i>=1;i-) printf("%d ", i); - what prints?`" → answer **5 4 3 2 1** → reveals finale 6. Final: **Empty Stage**

A14 1. Check-in (Envelope) → riddle points to **Badminton Court** 2. At Badminton Court: codeword puzzle — "*Start with 7. Perform x2, +6, /2, +5. Final value?*" → answer **15** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-A14**) → she gives her witness line and hands over a scrambled code, in character Crewmate hands over the code: **FRGH** 4. Enter that code online → decode it using **Caesar shift -3** → answer **CODE** → reveals next zone 5. At **Football Net**: evidence puzzle — "`int a[]={2,4,6,8,10}; for(i=0;i<5;i++) printf("%d ", a[i]+1); - what prints, and the sum?`" → answer **3 5 7 9 11, sum 35** → reveals finale 6. Final: **Empty Stage**

A15 1. Check-in (Envelope) → riddle points to **New Stairs** 2. At New Stairs: codeword puzzle — "*ASCII value of A?*" → answer **65** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-A15**) → she gives her witness line and hands over a scrambled code, in character Crewmate hands over the code: **KHOOR** 4. Enter that code online → decode it using **Caesar shift -3** → answer **HELLO** → reveals next zone 5. At **Placement Banner**: evidence puzzle — "*Find the next number: 2, 5, 11, 23, 47, ?*" → answer **95** → reveals finale 6. Final: **Empty Stage**

A16 1. Check-in (Envelope) → riddle points to **Main Gate** 2. At Main Gate: codeword puzzle — "*ASCII value of Z?*" → answer **90** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-A16**) → she gives her witness line and hands over a scrambled code, in character Crewmate hands over the code: **72 73** 4. Enter that code online → decode it using **ASCII** → answer **HI** → reveals next zone 5. At **Student Parking**: evidence puzzle — "`int a[]={5,10,15,20}; printf("%d", a[2]); - what prints?`" → answer **15** → reveals finale 6. Final: **Empty Stage**

Track B — "The Losing Streak"

B1 1. Check-in (Envelope) → riddle points to **Canteen** 2. At Canteen: codeword puzzle — "*Using ASCII, decode 72 73.*" → answer **HI** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-B1**) → he gives his witness line and hands over a scrambled code, in character Crewmate hands over the code: **84 69 67 72** 4. Enter that code online → decode it using **ASCII** → answer **TECH** → reveals next zone 5. At **Football Net**: evidence puzzle — "*A=1, B=0. Evaluate (A AND B) OR NOT(B).*" → answer **1** → reveals finale 6. Final: **Empty Stage**

B2 1. Check-in (Envelope) → riddle points to **Badminton Court** 2. At Badminton Court: codeword puzzle — "*Start with 7. Perform x2, +6, /2, +5. Final value?*" → answer **15** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-B2**) → he gives his witness line and hands over a scrambled code, in character Crewmate hands over the code: **FRGH** 4. Enter that code online → decode it using **Caesar shift -3** → answer **CODE** → reveals next zone 5. At **Garden**: evidence puzzle — "*How many times does for(int i=0;i<5;i++) execute?*" → answer **5** → reveals finale 6. Final: **Empty Stage**

B3 1. Check-in (Envelope) → riddle points to **Main Gate** 2. At Main Gate: codeword puzzle — "*ASCII value of A?*" → answer **65** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-B3**) → he gives his witness line and hands over a scrambled code, in character Crewmate hands over the code: **KHOOR** 4. Enter that code online → decode it using **Caesar shift -3** → answer **HELLO** → reveals next zone 5. At **Placement Banner**: evidence puzzle — "`for(int i=1;i<=3;i++) printf("%d", i); - what prints?`" → answer **123** → reveals finale 6. Final: **Empty Stage**

B4 1. Check-in (Envelope) → riddle points to **Football Net** 2. At Football Net: codeword puzzle — "*ASCII value of Z?*" → answer **90** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-B4**) → he gives his witness line and hands over a scrambled code, in character Crewmate hands over the code: **72 73** 4. Enter that code online → decode it using **ASCII** → answer **HI** → reveals next zone 5. At **New Stairs**: evidence puzzle — "*Find the next number: 4, 8, 16, 32, ?*" → answer **64** → reveals finale 6. Final: **Empty Stage**

B5 1. Check-in (Envelope) → riddle points to **Ground** 2. At Ground: codeword puzzle — "*Convert 84 69 67 72 using ASCII.*" → answer **TECH** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-B5**) → he gives his witness line and hands over a scrambled code, in character Crewmate hands over the code: **84 69 67 72** 4. Enter that code online → decode it using **ASCII** → answer **TECH** → reveals next zone 5. At **Student Parking**: evidence puzzle — "*Find the next number: 1, 4, 9, 16, ?*" → answer **25** → reveals finale 6. Final: **Empty Stage**

B6 1. Check-in (Envelope) → riddle points to **Garden** 2. At Garden: codeword puzzle — "*Decode FRGH using a Caesar shift of -3.*" → answer **CODE** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-B6**) → he gives his witness line and hands over a scrambled code, in character Crewmate hands over the code: **FRGH** 4. Enter that code online → decode it using **Caesar shift -3** → answer **CODE** → reveals next zone 5. At **Badminton Court**: evidence puzzle — "*Find the next number: 3, 6, 10, 15, ?*" → answer **21** → reveals finale 6. Final: **Empty Stage**

B7 1. Check-in (Envelope) → riddle points to **Placement Banner** 2. At Placement Banner: codeword puzzle — "*Decode KHOOR using a Caesar shift of -3.*" → answer **HELLO** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-B7**) → he gives his witness line and hands over a scrambled code, in character Crewmate hands over the code: **KHOOR** 4. Enter that code online → decode it using **Caesar shift -3** → answer **HELLO** → reveals next zone 5. At **Main Gate**: evidence puzzle — "`int a[]={10,20,30,40}; - what is a[0]?`" → answer **10** → reveals finale 6. Final: **Empty Stage**

B8 1. Check-in (Envelope) → riddle points to **New Stairs** 2. At New Stairs: codeword puzzle — "*Using Atbash (A<->Z, B<->Y...), decode XLWV.*" → answer **CODE** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-B8**) → he gives his witness line and hands over a scrambled code, in character Crewmate hands over the code: **72 73** 4. Enter that code online → decode it using **ASCII** → answer **HI** → reveals next zone 5. At **Canteen**: evidence puzzle — "`int a[]={5,10,15}; - what is a[1]+a[2]?`" → answer **25** → reveals finale 6. Final: **Empty Stage**

B9 1. Check-in (Envelope) → riddle points to **Student Parking** 2. At Student Parking: codeword puzzle — "*Using ASCII, decode 72 73.*" → answer **HI** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-B9**) → he gives his witness line and hands over a scrambled code, in character Crewmate hands over the code: **84 69 67 72** 4. Enter that code online → decode it using **ASCII** → answer **TECH** → reveals next zone 5. At **Ground**: evidence puzzle — "`for(int i=5;i>=1;i-) printf("%d ", i); - what prints?`" → answer **5 4 3 2 1** → reveals finale 6. Final:

Empty Stage

B10 1. Check-in (Envelope) → riddle points to **Football Net** 2. At Football Net: codeword puzzle — “Start with 7. Perform $\times 2$, $+6$, $/2$, $+5$. Final value?” → answer **15** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-B10**) → he gives his witness line and hands over a scrambled code, in character Crewmate hands over the code: **FRGH** 4. Enter that code online → decode it using **Caesar shift -3** → answer **CODE** → reveals next zone 5. At **Badminton Court**: evidence puzzle — “int a[]={2,4,6,8,10}; for(i=0;i<5;i++) printf(“%d “, a[i]+1); - what prints, and the sum?” → answer **3 5 7 9 11, sum 35** → reveals finale 6. Final: **Empty Stage**

B11 1. Check-in (Envelope) → riddle points to **Garden** 2. At Garden: codeword puzzle — “ASCII value of A?” → answer **65** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-B11**) → he gives his witness line and hands over a scrambled code, in character Crewmate hands over the code: **KHOOR** 4. Enter that code online → decode it using **Caesar shift -3** → answer **HELLO** → reveals next zone 5. At **New Stairs**: evidence puzzle — “Find the next number: 2, 5, 11, 23, 47, ?” → answer **95** → reveals finale 6. Final: **Empty Stage**

B12 1. Check-in (Envelope) → riddle points to **Main Gate** 2. At Main Gate: codeword puzzle — “ASCII value of Z?” → answer **90** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-B12**) → he gives his witness line and hands over a scrambled code, in character Crewmate hands over the code: **72 73** 4. Enter that code online → decode it using **ASCII** → answer **HI** → reveals next zone 5. At **Football Net**: evidence puzzle — “int a[]={5,10,15,20}; printf(“%d”, a[2]); - what prints?” → answer **15** → reveals finale 6. Final: **Empty Stage**

B13 1. Check-in (Envelope) → riddle points to **Canteen** 2. At Canteen: codeword puzzle — “Convert 84 69 67 72 using ASCII.” → answer **TECH** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-B13**) → he gives his witness line and hands over a scrambled code, in character Crewmate hands over the code: **84 69 67 72** 4. Enter that code online → decode it using **ASCII** → answer **TECH** → reveals next zone 5. At **Garden**: evidence puzzle — “A=1, B=0. Evaluate (A AND B) OR NOT(B).” → answer **1** → reveals finale 6. Final: **Empty Stage**

B14 1. Check-in (Envelope) → riddle points to **Badminton Court** 2. At Badminton Court: codeword puzzle — “Decode FRGH using a Caesar shift of -3.” → answer **CODE** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-B14**) → he gives his witness line and hands over a scrambled code, in character Crewmate hands over the code: **FRGH** 4. Enter that code online → decode it using **Caesar shift -3** → answer **CODE** → reveals next zone 5. At **Student Parking**: evidence puzzle — “How many times does for(int i=0;i<5;i++) execute?” → answer **5** → reveals finale 6. Final: **Empty Stage**

B15 1. Check-in (Envelope) → riddle points to **Placement Banner** 2. At Placement Banner: codeword puzzle — “Decode KHOOR using a Caesar shift of -3.” → answer **HELLO** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-B15**) → he gives his witness line and hands over a scrambled code, in character Crewmate hands over the code: **KHOOR** 4. Enter that code online → decode it using **Caesar shift -3** → answer **HELLO** → reveals next zone 5. At **Main Gate**: evidence puzzle — “for(int i=1;i<=3;i++) printf(“%d”,i); - what prints?” → answer **123** → reveals finale 6. Final: **Empty Stage**

B16 1. Check-in (Envelope) → riddle points to **New Stairs** 2. At New Stairs: codeword puzzle — “Using Atbash (A<->Z, B<->Y...), decode XLWV.” → answer **CODE** → enter online → Crewmate photo revealed 3. Find the Crewmate (**CM-B16**) → he gives his witness line and hands over a scrambled code, in character Crewmate hands over the code: **72 73** 4. Enter that code online → decode it using **ASCII** → answer **HI** → reveals next zone 5. At **Placement Banner**: evidence puzzle — “Find the next number: 4, 8, 16, 32, ?” → answer **64** → reveals finale 6. Final: **Empty Stage**

Notes / Open Items

1. **Placement Banner** — the Master Map only has one “Placement Court” slot per team, so I’ve used it generically. If you want the MG-side and MV/CV-side banners to be functionally different stops (not just the same zone reused), a team should probably be assigned specifically to one or the other — flag if you want that split built in.
2. **Puzzle repeats** — with only 8 codeword puzzles, 4 online puzzles, and 12 physical puzzles, some are reused across the 32 teams. This keeps prep and answer-checking simple. If you want zero repeats, we’d need to pull in the remaining D/E-adjacent reserve questions from the bank.
3. **Empty Stage capacity** — still worth confirming physically, since all 32 teams (not 16) now converge there.
