

ROUND 1 — QUICK-FLOW SUMMARIES

Track A (Red — "Time Travel Glitch") & Track C (Green — "Crime Mission")

TRACK A — RED

A1

1. Check-in (Envelope) → riddle points to **Football Net**
2. At Football Net: riddle puzzle — *"I click and freeze the world in place... what button stops then starts time back to run?"* → answer **STOPWATCH** → enter online → Crewmate photo revealed
3. Find the Crewmate (CM-A1) → she hands over the code: **CHRONOSHIFT**
4. Enter that code online → operator puzzle — `int a=5,b=3; printf(a & b);` → answer **1** → reveals next zone: Canteen
5. At Canteen: code puzzle — `int x=8; printf(x & (x-1));` → answer **0** → reveals finale
6. Final: **Canteen**

A2

1. Check-in (Envelope) → riddle points to **Garden**
2. At Garden: riddle puzzle — *"I make a flower bloom, then bloom once more... what looping trick turns decay away?"* → answer **REWIND** → enter online → Crewmate photo revealed
3. Find the Crewmate (CM-A2) → she hands over the code: **TIMELOOP99**
4. Enter that code online → operator puzzle — `int n=13; printf(n & 1);` → answer **1** → reveals next zone: New Stairs
5. At New Stairs: code puzzle — `int a=3,b=4; printf((a==3) && (b>2));` → answer **1** → reveals finale
6. Final: **Canteen**

A3

1. Check-in (Envelope) → riddle points to **Placement Court**

2. At Placement Court: riddle puzzle — *"I repeat the same lines again and again... what's the term for an endless while?"* → answer **INFINITE LOOP** → enter online → Crewmate photo revealed
3. Find the Crewmate (CM-A3) → she hands over the code: **QUANTUMLEAP**
4. Enter that code online → operator puzzle — `int a=5; printf(a << 2);` → answer **20** → reveals next zone: Badminton Court
5. At Badminton Court: code puzzle — `int a=6,b=9; printf(a ^ b ^ a);` → answer **9** → reveals finale
6. Final: **Canteen**

A4

1. Check-in (Envelope) → riddle points to **Empty Stage**
2. At Empty Stage: riddle puzzle — *"I flicker on screens, a broken frame... what error causes this jump in the air?"* → answer **GLITCH** → enter online → Crewmate photo revealed
3. Find the Crewmate (CM-A4) → she hands over the code: **FLUXCAPACITOR**
4. Enter that code online → operator puzzle — `int a=12; printf(a >> 2);` → answer **3** → reveals next zone: Football Net
5. At Football Net: code puzzle — `int x=5; printf(x << 1);` → answer **10** → reveals finale
6. Final: **Canteen**

A5

1. Check-in (Envelope) → riddle points to **Canteen**
2. At Canteen: riddle puzzle — *"You've felt me before, though it's the first time... what phenomenon am I, of the déjà kind?"* → answer **DEJA VU** → enter online → Crewmate photo revealed
3. Find the Crewmate (CM-A5) → she hands over the code: **TEMPORALRIFT**
4. Enter that code online → operator puzzle — `int a=7,b=5; printf(a ^ b);` → answer **2** → reveals next zone: Garden
5. At Garden: code puzzle — `int a=14; printf(a >> 1);` → answer **7** → reveals finale
6. Final: **Canteen**

A6

1. Check-in (Envelope) → riddle points to **New Stairs**
2. At New Stairs: riddle puzzle — *"If you went back and stopped your own birth... what's this classic time-travel side?"* → answer **PARADOX** → enter online → Crewmate photo revealed
3. Find the Crewmate (CM-A6) → she hands over the code: **PARADOXCODE**
4. Enter that code online → operator puzzle — `int a=9; printf(~a);` → answer **-10** → reveals next zone: Ground
5. At Ground: code puzzle — `int a=5,b=2; printf(a>b ? a-b : b-a);` → answer **3** → reveals finale
6. Final: **Canteen**

A7

1. Check-in (Envelope) → riddle points to **Badminton Court**
2. At Badminton Court: riddle puzzle — *"Same match, same score, replayed once more... repeating forever like a broken glass?"* → answer **TIME LOOP** → enter online → Crewmate photo revealed
3. Find the Crewmate (CM-A7) → she hands over the code: **REWINDPOINT**
4. Enter that code online → operator puzzle — `int a=10; printf(a%3 + a/3);` → answer **4** → reveals next zone: Placement Court
5. At Placement Court: code puzzle — `int x=4,y=4; printf((x==y) | (x>y));` → answer **1** → reveals finale
6. Final: **Canteen**

A8

1. Check-in (Envelope) → riddle points to **Main Gate**
 2. At Main Gate: riddle puzzle — *"Every entry undoes what came before... erasing all progress and starting from two?"* → answer **RESET** → enter online → Crewmate photo revealed
 3. Find the Crewmate (CM-A8) → she hands over the code: **RESETCLOCK**
 4. Enter that code online → operator puzzle — `int a=6,b=3; printf(a | b);` → answer **7** → reveals next zone: Empty Stage
 5. At Empty Stage: code puzzle — `int a=15; printf(a & 8);` → answer **8** → reveals finale
 6. Final: **Canteen**
-

TRACK C — GREEN

C1

1. Check-in (Envelope) → riddle points to **Garden**
2. At Garden: riddle puzzle — *"I have a lens that makes small things grand... what tool for inspection could I possibly be?"* → answer **MAGNIFYING GLASS** → enter online → Crewmate photo revealed
3. Find the Crewmate (CM-C1) → she hands over the code: **REDDIAMOND**
4. Enter that code online → decode using Caesar Cipher (shift -4): "NIAIP" → answer **JEWEL** → reveals next zone: Badminton Court
5. At Badminton Court: code puzzle — `if(a<b && b<30) printf(a+b); else printf(a-b);` (a=10,b=20) → answer **30** → reveals finale
6. Final: **New Stairs**

C2

1. Check-in (Envelope) → riddle points to **Canteen**
2. At Canteen: riddle puzzle — *"I have no key yet I open the vault... what am I, the tool safe-crackers found?"* → answer **STETHOSCOPE** → enter online → Crewmate photo revealed
3. Find the Crewmate (CM-C2) → she hands over the code: **VAULTBREAKER**
4. Enter that code online → decode using ASCII: "86 65 85 76 84" → answer **VAULT** → reveals next zone: Main Gate
5. At Main Gate: code puzzle — `printf(x*y + x/y);` (x=4,y=2) → answer **10** → reveals finale
6. Final: **New Stairs**

C3

1. Check-in (Envelope) → riddle points to **New Stairs**
2. At New Stairs: riddle puzzle — *"I hold the colours that painters trust... what tool paints a lie that looks true?"* → answer **PAINTBRUSH** → enter online → Crewmate photo revealed
3. Find the Crewmate (CM-C3) → she hands over the code: **FORGEDCANVAS**
4. Enter that code online → decode binary: "01000001 01010010 01010100" → answer **ART** → reveals next zone: Empty Stage

5. At Empty Stage: code puzzle — `for(i=1;i<=5;i++) sum+=i; printf(sum);` → answer **15** → reveals finale

6. Final: **New Stairs**

C4

1. Check-in (Envelope) → riddle points to **Badminton Court**

2. At Badminton Court: riddle puzzle — *"I'm a program that walks in unseen... name the tiny thief that makes systems fail."* → answer **KEYLOGGER** → enter online → Crewmate photo revealed

3. Find the Crewmate (CM-C4) → she hands over the code: **GHOSTHACKER**

4. Enter that code online → decode using Reverse Cipher: "REKCAH" → answer **HACKER** → reveals next zone: Football Net

5. At Football Net: code puzzle — `int arr[3]={5,10,15}; printf(arr[0]+arr[2]);` → answer **20** → reveals finale

6. Final: **New Stairs**

C5

1. Check-in (Envelope) → riddle points to **Main Gate**

2. At Main Gate: riddle puzzle — *"I'm hidden in a container, sealed and taped tight... what am I called in the smuggler's routine?"* → answer **CONTRABAND** → enter online → Crewmate photo revealed

3. Find the Crewmate (CM-C5) → she hands over the code: **MIDNIGHTCARGO**

4. Enter that code online → decode using Caesar Cipher (shift +5): "HFWLT" → answer **CARGO** → reveals next zone: Canteen

5. At Canteen: code puzzle — `printf((x%2==0)? x*2 : x*3);` (x=7) → answer **21** → reveals finale

6. Final: **New Stairs**

C6

1. Check-in (Envelope) → riddle points to **Empty Stage**

2. At Empty Stage: riddle puzzle — *"I look real, I feel real, but I'm not what I seem... what word describes the money I make?"* → answer **COUNTERFEIT** → enter online → Crewmate photo revealed

3. Find the Crewmate (CM-C6) → she hands over the code: **FAKENOTE**

4. Enter that code online → decode hexadecimal: "46 41 4B 45" → answer **FAKE** → reveals next zone: Placement Court
5. At Placement Court: code puzzle — `while(n>0){fact*=n; n--;} printf(fact);` (n=3) → answer **6** → reveals finale
6. Final: **New Stairs**

C7

1. Check-in (Envelope) → riddle points to **Football Net**
2. At Football Net: riddle puzzle — *"I hold a secret that someone wants buried... what crime forces payment through fear and duress?"* → answer **EXTORTION** → enter online → Crewmate photo revealed
3. Find the Crewmate (CM-C7) → she hands over the code: **SILENTTHREAT**
4. Enter that code online → decode Morse Code: "--...- -" → answer **THREAT** → reveals next zone: New Stairs
5. At New Stairs: code puzzle — `c = a + b*b - a; printf(c);` (a=2,b=3) → answer **9** → reveals finale
6. Final: **New Stairs**

C8

1. Check-in (Envelope) → riddle points to **Placement Court**
2. At Placement Court: riddle puzzle — *"I slip into offices dressed like a friend... what crime steals secrets before the work's begun?"* → answer **ESPIONAGE** → enter online → Crewmate photo revealed
3. Find the Crewmate (CM-C8) → she hands over the code: **STOLENBLUEPRINT**
4. Enter that code online → decode using Atbash Cipher: "HKB" → answer **SPY** → reveals next zone: Garden
5. At Garden: code puzzle — `if(x>0) y=x*x; else y=-x; printf(y);` (x=5) → answer **25** → reveals finale
6. Final: **New Stairs**
